ABOUT THE FESTIVAL

A true celebration of cinema in all its forms of expression, the Festival welcomes **more than 150 productions from some 30 countries,** including short, medium and full-length features, documentaries, animated films, and feature films. The Festival will delight you!

The event is distinguished by **the quality of its varied programming, its impeccable technical supervision** as well as **its unique and friendly reception structure**. It offers a quality programming, rich in early and varied cinematographic forms, which allows film-lovers to take an informed look at international film production.

In addition to the regular programming, **several activities are organized to reach a large public from 5 to 99 years:** special sections for children and school groups, a section for the elderly and Espace Court, which allows us to reach a different audience with underground or more marginal films in a casual cabaret atmosphere.

The fervor and loyalty of its audience, the renown of its guests, the excellent media coverage it receives, the professionalism of its organization and the unwavering support of its entire community makes it a highly sympathetic event. All this enabled the Festival to distinguish itself and to carve a place of choice among the national and international cultural events.

An undeniable springboard for the artists of the cinema industry and an exciting opportunity of discoveries for the public. This original event allows, through its packages, **unforgettable and unique encounters** between moviegoers, journalists and filmmakers.
